Thank you Laura, Ravi and Sumalatha for working with Business and CPE SRO on LEAP CMS SLO phase 1 journey. You actively participate in the discussion sessions, share your knowledge and expertise, and provide suggestions and solutions on journey mappings. Thank you, Laura for defining new LEAP CMS SLOs on Dynatrace dashboard, working with PCM team and resolving the issues on Dynatrace. Keep up the excellent work. Looking forward to continuing working with you all on LEAP CMS journeys.

Thank you Laura for your work in the H2W project. Specifically in helping with the communication and translation with the Costa Rica development team. It was not an easy task being the communication bridge between the Toronto team and Costa Rica to ensure that information is being exchanged correctly. Equally difficult was expressing the frustrations on both sides when things were not going to plan. You did so impressive professionalism!

Thank you for reporting all Q2 Phishing Tests to phishing@scotiabank.com. Each of us play an essential role in strengthening Scotiabank's cybersecurity posture. Your actions have not only protected our customers, but also contributed to raising awareness among your colleagues about the importance of identifying and reporting suspicious emails. Thank you for your valuable contribution to Keeping the Bank Safe.

A HUGE thank you for each and everyone for all your contributions in achieving this milestone for Panama ACH Xpress activation despite of all the challenges . You consistently put in long hours and go above and beyond to ensure that activation was successful. Your commitment to excellence is truly remarkable, and I'm grateful to work with such dedicated team members during this project .
